The reply filed respectively on September 07, 2001 (Paper No. 16) and October 30, 2001 (Paper No. 19) are not fully responsive to the prior Office action because of the following omission(s) or matter(s):

1/ A substitute specification including the claims and drawings
is required pursuant to 37 CFR 1.125(a) because:

The number or nature of the amendments or the legibility of the application papers renders it difficult to consider the application, or to arrange the papers for printing or copying.

A substitute specification filed under 37 CFR 1.125(a) must only contain subject matter from the original specification and any previously entered amendment under 37 CFR 1.121. If the substitute specification contains additional subject matter not of record, the substitute specification must be filed under 37 CFR 1.125(b) and must be accompanied by: 1) a statement that the substitute specification contains no new matter; and 2) a marked-up copy showing the amendments to be made via the substitute specification relative to the specification at the time the substitute specification is filed.

2/ Applicants are also invited to resubmit supports for each of pending claims 63 to 91 (now elected for prosecution) conforming to page numbers, line numbers, and figure numbers in the substitute specification.

See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given a TIME PERIOD of ONE (1)

MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
